Knitted Collection

It is believed that socks and stockings were the first pieces produced using techniques similar to knitting. These socks were worked in Nålebinding, a technique of making fabric by creating multiple knots or loops with a single needle and thread. Most histories of knitting place its origin somewhere in the Middle East, from there it spread to Europe by Mediterranean trade routes, and then to the Americas with European colonization.

Available in 100g loose/leaf tea in metal tin caddies.
